

Upgrade to a rechargeable custom fit hearing device.

Extraordinary sound, customized just for you

Dear [Name],

Are your current hearing aids ready for an upgrade? Imagine an in-the-ear hearing device that's comfortable to wear, automatically adapts to your environment and features market-leading connectivity. At [Your Practice Name], we're thrilled to offer you the next level of customized hearing technology.

Introducing **Phonak Virto™ R Infinio** – the first rechargeable custom hearing aid equipped with Phonak SmartSpeech™ Technology. Experience exceptional sound quality, speech understanding and convenience that has become synonymous with Infinio technology.

Here's what makes Virto I-R extraordinary:

- **Discreet, modern device:** Custom-designed and meticulously crafted, your Virto I-R will be molded specifically to your individual ear to ensure your device sits comfortably in your ear, all day long.
- **Universal connectivity:** Whether streaming from a smartphone or taking hands-free calls, you'll stay connected throughout the day while automatically switching between conversations, music and media.
- **Recharging made easy:** With the proprietary snap and charge system, it makes recharging simple. Just drop your Virto I-R into the charger at night and watch them magnetically attach to the charging ports.

Unlock a world of new possibilities.

Call us today at XXX-XXX-XXXX to learn more about upgrading to Phonak Virto R Infinio and why nothing fits better than custom.

Sincerely,

Signature
